

QIDI (JOANNE) WANG

386.295.5179 | qidi.j.wang@gmail.com | linkedin.com/in/qidi-wang | github.com/AlphauroraE

EDUCATION

University of Central Florida | GPA 4.00

May 2025

- **Major:** Computer Science, B.S.
- **Honors:** Burnett Honors, UCF Summer Undergraduate Research Fellowship, President's Honor Roll, National Merit Finalist
- **Relevant Coursework:** Algorithms for Machine Learning, Software Design, Cryptography, Bioinformatics, Robot Vision

SKILLS

Programming Languages: Python | Java | C | R | PHP | HTML | JavaScript | CSS | TypeScript

Software: Jupyter Notebook | GitHub | NeuroLucida 360 | Unity | AWS Lightsail

Libraries/Frameworks: Numpy | Pandas | Scikit-Learn | Tailwind CSS | SvelteKit | Flask | Beautiful Soup

PUBLICATIONS

- **Qidi J. Wang**, Alec G. Moore, Nayan N. Chawla, Ryan P. McMahan (2024). "Cross-Domain Gender Identification Using VR Tracking Data". *To Appear in 2024 IEEE International Symposium on Mixed and Augmented Reality (ISMAR), Seattle, WA, USA, 2024 pp. 1-10*
 - **Acceptance Rate:** 31%
- **Qidi J. Wang** and Ryan P. McMahan (2024). "Gender Identification of VR Users by Machine Learning Tracking Data". *In 2024 IEEE Conference on Virtual Reality and 3D User Interfaces Abstracts and Workshops (VRW), Orlando, FL, USA, 2024 pp. 827-828.*

PROFESSIONAL EXPERIENCE

MBF Bioscience and University of Central Florida

May 2024 – Aug. 2024

Undergraduate Research Assistant, Intelligent Biomedical Technology Nexus Laboratory (IBTNex)

- Annotated 20 3D tiles of neurons via NeuroLucida 360 software for ML training data to differentiate healthy and diseased brains
- Communicated weekly project milestones to Dr. Laura Brattain and MBF Bioscience team consisting of doctors and researchers

Perceptually-enabled Task Guidance (PTG) Program

Apr. 2024 – Sep. 2024

Undergraduate Research Assistant

- Ran 23 participants for a study examining the effects of pre-cueing in virtual reality and augmented reality contexts
- Contributed images to 2025 IEEE Conference on Virtual Reality and 3D User Interfaces conference paper submission

Machine Learning and Virtual Reality Research

Aug. 2022 – Present

Undergraduate Researcher, eXtended Reality Training Lab at UCF (XRT)

- Developed a Python library of machine learning code to run thousands of experiments utilizing Numpy, Pandas, and Scikit-Learn
- Authored a first-author conference paper and poster in collaboration with Dr. Ryan P. McMahan and PhD candidates

LEADERSHIP & EXTRACURRICULARS

KnightHacks (University of Central Florida Programming Club)

Jan. 2025 – Present

Role: Workshop Instructor

- Planned and taught a workshop on Advanced Python, covering data structures, object-oriented programming, iterators, etc.
- Will teach an introductory workshop on machine learning by leveraging research experience and familiarity with scikit-learn

Society of Asian Scientists and Engineers

Feb. 2025 – Present

Role: Professional Development Intern

- Prepared and co-hosted a research workshop and Q&A panel with a biomedical researcher
- Attended the 2025 SASE Southeast Regional Conference held at the University of South Florida in Tampa, Florida

PROJECTS

Snap.py Grocery List Tool (Python, HTML, JavaScript, Flask)

Oct. 2024

Role: Back-End Developer

- Implemented web scraping via Beautiful Soup to parse real-time price data from HTML pages of local supermarkets
- Created a database for grocery item prices to optimize store recommendations for reduced shopping costs

DevPath AI Learning Planner (SvelteKit, Tailwind CSS, JavaScript, TypeScript)

Oct. 2024

Role: Full-Stack Developer

- Developed an AI-driven app to design personalized learning plans using the Google Gemini API
- Collaborated with a team of four to address role delegation and learning challenges to enhance efficiency
- Built a responsive user interface with SvelteKit and Tailwind CSS for a seamless user experience

Contact Manager (JavaScript, PHP, SQL, HTML)

Aug. 2024 – Sep. 2024

Role: Back-End Developer

- Developed server-side logic with PHP, JavaScript, and HTML to create APIs and integrate SQL databases
- Deployed the web server on Amazon Lightsail
- Utilized Trello to enhance team coordination and leveraged SwaggerHub for API documentation
